

Opening of our Sites

Since our doors opened in 1988, Mary's Center has grown from a small basement clinic that served 200 women a year to a Federally Qualified Health Center that projects to serve over 40,000 women, men, and children a year.

Between 1988 and 2014 our staff size grew from 10 to more than 400 and our annual operating budget from \$250,000 to \$39 million.

Mary's Center now has six locations-- in Washington, D.C. and Maryland-- in addition to a senior wellness center, and two mobile units, the Mama & Baby Bus and the Dental Cruiser.

Below are the dates when all of our locations/mobile units started operations:
